

bica®

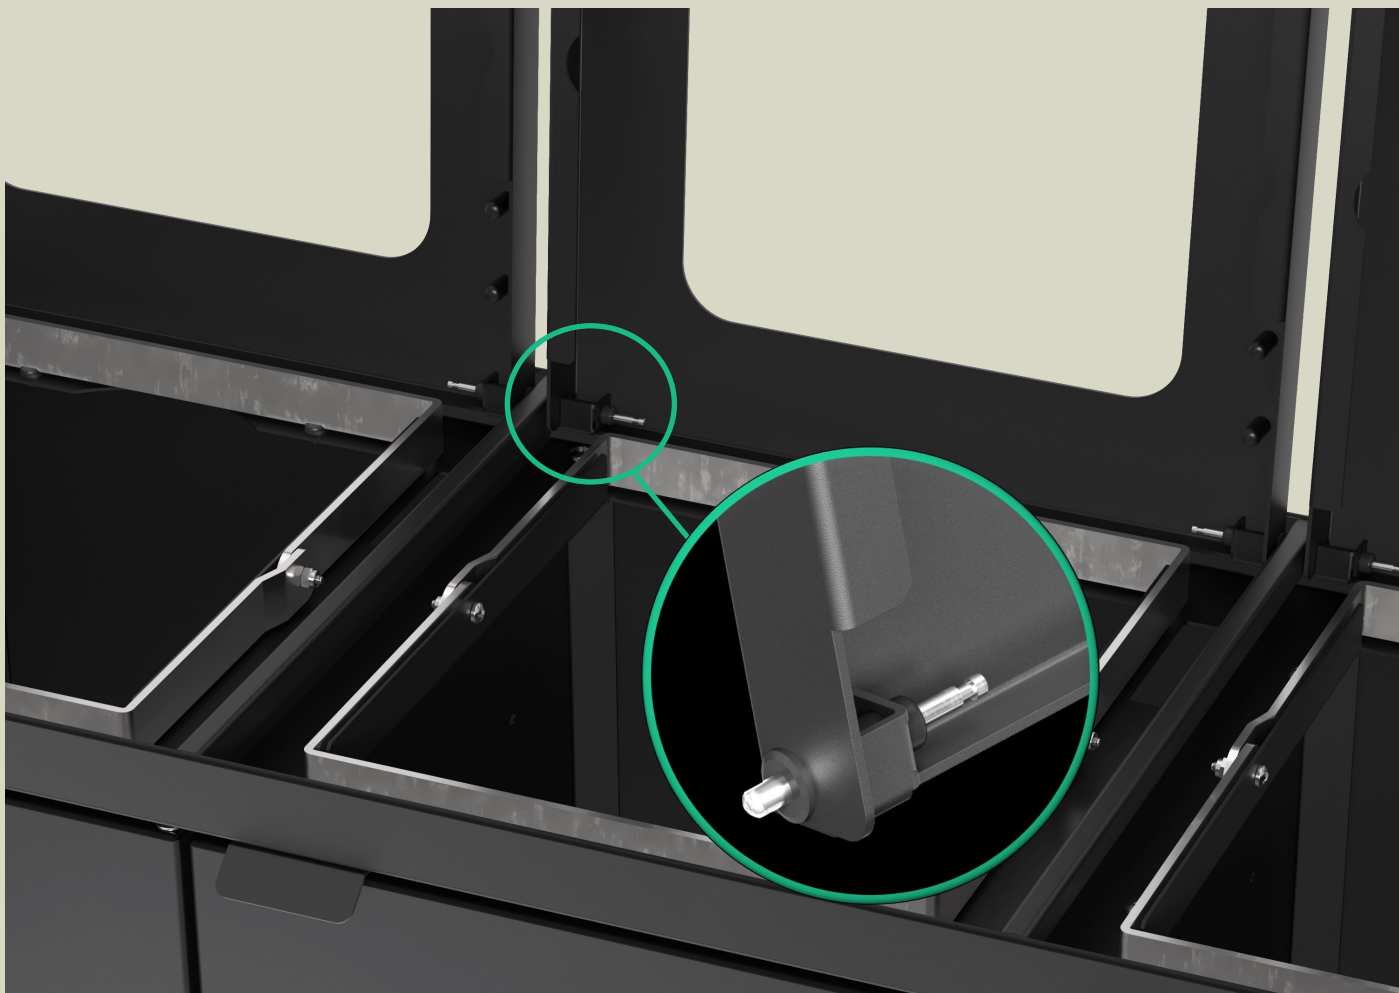

— click-on

Your needs define the solution
- not the other way around

Place inputs & lids
as you wish with click-on

We build the foundation. You create the solution.

Use magnets
to connect
the bins

1

Customize your unique solution

Create the perfect solution with replaceable inputs and lids.

2

Multi-flexible design

Modular system with endless configuration possibilities.

3

Easy installation

The click-on system ensures easy installation without use of tools.

Bica Click-on ensures maximum modularity

Bica Click-on is a flexible group of waste bins that gives you the freedom to put together the solution that best suits your needs. The range consists of base models that can be adapted with different inputs and lids, so that waste sorting is both intuitive and efficient.

Thanks to the innovative click-on system, the inputs and lids are mounted quickly and easily - without the use of tools. This makes it easy to change or upgrade the waste solution if your needs change over time.

With Bica Click-on you get a future-proof waste solution that combines flexibility, functionality and an elegant design.
